

I request that no changes be made to the Wisconsin "No Call" program. Now when we receive calls it is for family members, not calls that interrupt dinner, the climax of a favorite tv show or football game, or rushing out of the shower. We hurry to the phone only to hang up on unwanted sales pitches. If I want to buy something, I will shop locally, use magazine ads, or research on the internet.

There are many mediums available for advertising over and above the ones I have listed. Merchants and banks do not have to invade our home with annoying calls.
